### **Thank You Note**

Dear Family, I would like to thank everyone for the prayers and cards on my behalf while going through heart treatment. I suffered three heart attacks on September 20, 2022 and received a stent to open a main artery. I was asked if I would be willing to participate in a world wide test program to see if a fusion process would eliminate the need for stents. The results won't be known for a year to give them time to analyze every patient. In the meantime, I had two additional stents in arteries behind the heart on Tuesday, October 18, 2022. These were planned after the first diagnosis. I have done very well and feel very good. I do only what the doctor says. I am positive that all the wonderful cards and prayers are what has made everything go well. I am free to move about but have not been able to drive until the 25th (yesterday). God bless you all. Love, Danny Allen
